## ANNOUNCEMENT BY THE SPEAKER PRO TEMPORE

The SPEAKER pro tempore (during the vote). There are 2 minutes remaining.

□ 1903

So (two-thirds being in the affirmative) the rules were suspended and the bill was passed.

The result of the vote was announced as above recorded.

A motion to reconsider was laid on the table.

## PERSONAL EXPLANATION

Mr. SCALISE. Mr. Speaker, I was unavoidably detained. Had I been present, I would have voted "yea" on rollcall No. 140 and "yea" on rollcall No. 141.

## PERSONAL EXPLANATION

Ms. JAYAPAL. Mr. Speaker, had I been present for rollcall vote 140 and rollcall vote 141 on Monday, April 16, 2018, I would have voted "aye" on both.

## RESIGNATION AS CHAPLAIN OF THE HOUSE OF REPRESENTATIVES

The SPEAKER pro tempore (Mr. HIGGINS of Louisiana) laid before the House the following resignation from the House of Representatives:

OFFICE OF THE CHAPLAIN  
HOUSE OF REPRESENTATIVES,  
Washington, DC, 15 April 2018.

Hon. PAUL D. RYAN,  
Speaker, U.S. Capitol.

DEAR PAUL, the Peace of Christ! As you have requested, I hereby offer my resignation as the 60th Chaplain of the United States House of Representatives. It has been an honor to serve the People's House for these nearly seven years. After mutual consideration, it is determined my final day will be 24 May 2018.

The position is one which I did not seek nor strive to assume, but I have seen it as a blessing and I have considered it one of the great privileges of my life.

I wish all the best for the House of Representatives, and for your upcoming search for a worthy successor in the Office of the Chaplain.

Sincerely,

PATRICK J. CONROY, S.J.,  
Chaplain.

The SPEAKER pro tempore. Without objection, the resignation is accepted. There was no objection.

## MATHEMATICS AND STATISTICS AWARENESS MONTH

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, April is Mathematics and Statistics Awareness Month.

President Ronald Reagan designated this month in 1986. He said, in part:

"Despite the increasing importance of mathematics to the progress of our economy and society, enrollment in mathematics programs has been declining at all levels of the American educational system.

"Yet the application of mathematics is indispensable in such diverse fields

as medicine, computer sciences, space exploration, the skilled trades, business, defense, and government. To help encourage the study and utilization of mathematics, it is appropriate that all Americans be reminded of the importance of this basic branch of science to our daily lives."

Mr. Speaker, these words still resonate today.

Math plays a significant role in addressing many real-world problems: internet security, sustainability, disease, and much more.

Research in these and other areas is ongoing, revealing new results and applications every day in fields such as medicine, manufacturing, energy, biotechnology, and business.

In our growing technological world, the study of math and statistics is one that will continue to be critically important. Happy Mathematics and Statistics Awareness Month.

## NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY CYBERSECURITY FRAMEWORK UPDATE

(Mr. LANGEVIN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LANGEVIN. Mr. Speaker, today the National Institute of Standards and Technology, or NIST, published its first major update to its heralded cybersecurity framework. Since its release 4 years ago, countless organizations have used the framework to voluntarily assess their cybersecurity risk posture, identify gaps, and implement best practices. This update adds timely guidance about managing supply chain cybersecurity risks, like those Russia exploited to damaging effect with the NotPetya malware.

Since President Obama first directed its creation, NIST has employed a collaborative approach to developing the framework with diverse stakeholders from government, private industry, academia, and civil society. The revision process reflects this public-private partnership, and I thank the NIST team for their hard work drafting this update.

I firmly believe that cybersecurity is not just an IT problem, and the framework's approach reflects a broader risk-based decisionmaking process. However, an understanding of the economics of controls is essential if we expect companies to adopt them voluntarily, and I look forward to continuing my work in this Chamber to deepen that understanding.

## NATIONAL SEXUAL ASSAULT AWARENESS MONTH

(Mr. PAULSEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PAULSEN. Mr. Speaker, I want to draw attention to April as National Sexual Assault Awareness Month.
